PROFILE

Hi! I'm Faith, an experience designer aspiring to bring people together through communities and services. Currently a student exploring the intersection of design and technology, and everything in between.

EXPERIENCE

Marketing Consultant, Vicarious Multimedia Productions, Arlington Heights, IL — 2020

- Developed storyboard and script for video project in collaboration with team members to complete commission in a timely and quality manner.
- Communicated closely with client to coordinate feedback and adjust product to ensure completed project is accurate and effective.

Product Designer, USC Design For America, Los Angeles, CA — 2021

- Conducted user research to identify pain points in student finance for Discover's National Design Challenge.
- Wireframed and tested app in collaboration with team to present proposed solutions to findings of research.

Design Consultant, Crenshaw Y, Los Angeles, CA — 2022

- Conducted firsthand interviews and surveys to evaluate pain points and successes of child education in the Crenshaw Y.
- Proposed solutions to redesign the curriculum and interior spaces of the Crenshaw Family Y to promote community engagement and encourage innovation education for young children.

Product Design Intern, Opal, Los Angeles, CA — 2022

- Designed high fidelity frames for beta release of new NFT marketplace.

Experience Design Consultant, WNDR Museum, Chicago, IL — 2022

- Generated customer insights, pain points, and strategies to enhance the WNDR Chicago museum experience.
- Developed original STEAM curriculum programming within museum installations to boost engagement with local school communities.

EDUCATION

University of Southern California, B.S. Arts, Technology, and the Business of Innovation

Minor in Web Development, Presidential Scholar, 3.79 GPA
